## DATA PROTECTION OFFICER AS A SERVICE

As the Data Protection Officer (DPO), the Hitachi Systems Security's Privacy and Data Protection experts assist the organization in establishing, maintaining, and strengthening compliance with data protection and privacy laws and regulation, and industry standards and best practices.

### YOUR POINT OF CONTACT.

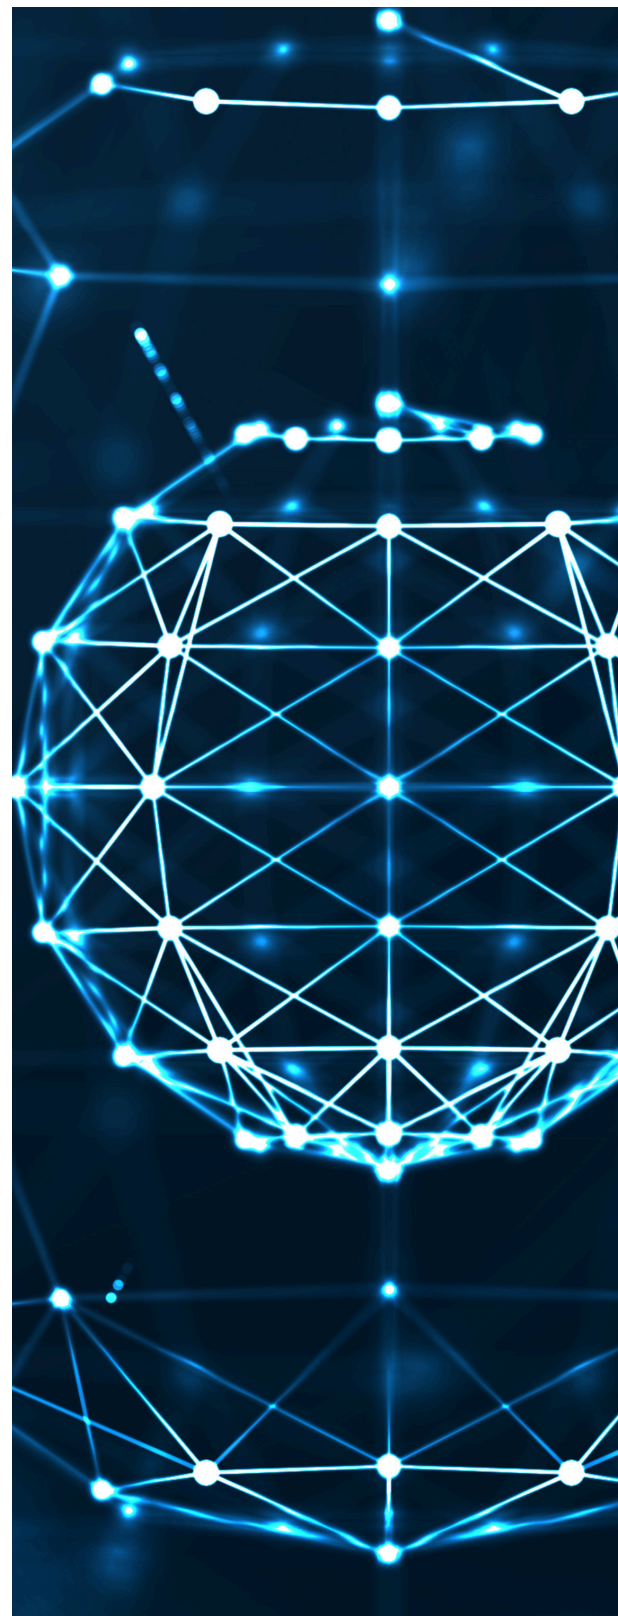

Data Protection Advisors help organizations develop an effective "Data Protection Compliance Program", promoting data protection as a corporate value, overseeing data protection procedures and practices, and acting as the point of contact for Data Subjects and Supervisory Authorities.

# WHEN IS A DATA PROTECTION OFFICER NECESSARY?

Several legislations require the designation of a Data Protection Officer or a similar role.

Usually, when:

- The processing of personal data is carried out by a public authority or body, except for courts acting in their judicial capacity.
- The organization's core activities consist of personal processing data, which require regular and systematic monitoring of individuals on a large scale.
- The organization's core activities entail the processing on a large scale of sensitive data or personal data relating to criminal convictions and offences (GDPR, Articles 9 and 10).

## Stay Globally Informed and Compliant

**Please consult our Privacy Analysts to check how we can assist you in operationalizing compliance with privacy and data protection regulations.**

Our experts help organizations stay up-to-date and compliant with international, national and provincial laws and regulations such as the European Union's General Data Protection Regulation (GDPR), Personal Information Protection and Electronic Documents Act (PIPEDA), California Consumer Privacy Act (CCPA), and Brazilian General Data Protection Law (LGPD-Brazil).

**The tasks of the DPO can be performed internally by a full-time or part-time employee with the support of external experts or outsourced to an experienced service provider as Hitachi Systems Security.**
